

## Galesburg Public Library Wireless Access Policy

The Galesburg Public Library provides free wireless Internet access for users with devices capable of receiving wireless signals during normal library business hours. These access points allow users to access the Internet from their devices when sitting within range of the access points.

Library staff will provide general information on the settings necessary to access the Internet via these connections, but are not responsible for any changes users make to their device settings and cannot guarantee that a user's hardware will work with the library's wireless connection.

If a user has problems accessing the Internet over these connections, staff cannot assist in making changes to the user's network settings or perform significant troubleshooting on the user's own device. Users should refer to their owners' manuals or other support services offered by their device manufacturer.

As with most public wireless connections, the library's wireless connection is not fully secure. There can be non-trustworthy third parties between the user and anybody with whom the user communicates. Another wireless user could potentially intercept any information being sent or received. Cautious and informed wireless users should not transmit their credit card information, passwords and any other sensitive personal information while using any wireless connection.

The library will not be responsible for any personal information (for example, credit card) that is compromised, or for any damage caused to your hardware or software due to electric surges, security issues or consequences caused by viruses or hacking. All wireless access users should have up-to-date virus protection on their personal devices.

If you need to print, please see a staff member.

Our Internet Policy governs use of these access points. All users are expected to use the library's wireless access in a legal and responsible manner, consistent with the educational and informational purposes for which it is provided. Users should not violate federal, state or local laws, including the transmission or receiving of child pornography or harmful material, fraud, or downloading copyrighted material.

Any restriction or monitoring of a minor's access to the library's wireless network is the sole responsibility of the parent or guardian.

Devices should not be left unattended. The library assumes no liability for theft or damage to patron devices.

### BREACH OF POLICY

The Galesburg Public Library reserves the rights to limit, refuse, and/or ban any patron from using the library equipment and computers. Violation of any aspect of this policy may result in the loss of library privileges.
