## HYGIENIC INFIRMARY.

New Arrangement.

**A. C. HUMPHREY, M. D.**

Would respectfully inform the public that he has opened his house for the especial accommodation of invalids in and near the city. Our house is well furnished, and our arrangements for medical appliances are excellent. Invalids in any form of disease, able to be moved, will be received at the house, and have the comforts of home, medical attendance, nursing, and board, for about the same expense as would secure medical advice once a day at their homes.

With the facilities offered, few need be sick. Chronic diseases receive special attention. Dyspepsia, Liver Complaint, Rheumatism, Scrofula, Incipient Consumption, diseases of females, &c., are always relieved and nearly always permanently cured by a few weeks or months of treatment.

The glory of the Hygienic system is most readily seen in the management of acute disease. All forms of Fever and all kinds of Inflammation, Diphtheria, Erysipelas, Scarlatina, Pneumonia, &c., under our treatment, nearly always result in entire and perfect recovery.

Our assistants and nurses are competent, experienced, and skillful.

We have secured the services of Miss V. C. Murdoch, a lady of experience and ability, who will have the entire charge of administering the treatment in the Ladies' Department. Her experience and her genial, social nature, renders her eminently fitted for her work.

### PRICES.

Bath at the Institution, \$1. Day Treatment from \$2 to \$3 per Day.

Board and treatment from \$8 to \$12 per week, according to room and attention required. An invalid requiring constant attention will be required to furnish a nurse. All persons entering the institution the first time for treatment will be charged an examination fee of \$5, except in families who have employed the physician of the institution. Boarders received when there is room at from \$5 to \$8 per week, according to room. No incidental expenses with the above rates except for washing of wearing apparel, which will be charged for at the low price of 50 cents per dozen pieces.

Ministers and their families treated at reduced rates.

All invalids who come to the institution for treatment shall have as far as possible the comforts and conveniences of home, and every effort will be made to promote their speedy recovery to sound health.

## PREFACE.

In presenting to the public this work, as the revision of the City Directory of this City for 1875-6, its object and value in its preparation have been constantly held in view. Every effort was made in the canvass to procure the correct location of all citizens, while in connection with their business they become recognized in each and all branches conducted by them, also, containing much other matter of utility and interest to the citizens of Galesburg and to strangers, rendering it a fit representation of the business and enterprise of the City.

The General Directory shows 3,929 names, an increase of 411 over 1873, and from which an estimate of the number of people living in the City may be made.

For any imperfections or omissions that may occur—notwithstanding the diligence used in gathering the promiscuous matter requisite to complete a work of this kind, especially the large number of names, which is believed to include all that would claim recognition within its pages—the publishers ask the indulgence of the public, trusting that the work will meet with that satisfaction and approval which it has been their earnest endeavor to achieve.

# The City of Galesburg.

Galesburg is the seat of justice of Knox County, and one of the most beautifully located and laid out cities in West. Its early history dates back some thirty-nine years, through the whole of which time it has steadily increased in wealth and population, and now numbers near fifteen thousand inhabitants. As a railroad center, Galesburg is the junction of the Burlington and Quincy branches of the C. B. & Q. R. R., and the western terminus of the branch to Peoria. Galesburg is situated in the midst of one of the finest agricultural sections in the West; for miles upon either side stretches a vast, expanse of beautiful prairie, and well cultivated farms greet the eye in every direction. Vast improvements are everywhere visible, and yet the resources of the surrounding country have scarcely been brought to light, the soil is fertile and capable of supporting threefold its present population.

The vast amount of stratas of coal underlying the surrounding country are inexhaustable, and can afford fuel for countless manufacturing establishments. One of the crowning glories of the city is the profusion of shade trees lining the street on either side, and in the spring and summer there is such a wilderness of foliage as almost to obscure the houses. The streets are laid out at right angles, and are well provided with substantial sidewalks, usually kept in good repair, and afford many attractive promenades and drives. The principal stores are located on Main street, and around the Public Square, upon either side of which are fine business houses and blocks, many of them of beautiful design and finish. Galesburg is noted for its educational institutions, among which are the Knox College, The Female Seminary, and Lombard University. Its High School is equal, if not superior, to many Colleges.
